INDEX TO VOL. XLIX

Electrical Review

NEW YORK

JULY 7 TO DECEMBER 29, 1906

INDEX TO VOLUME XLIX

ELECTRICAL REVIEW

JULY 7 TO DECEMBER 29, 1906

Articles marked * are illustrated; (E) indicates "Editorial"; (P) indicates notes under "Recent Electrical Patents"; (R) indicates "Reviews of Current Engineering Literature."

A

Accidents, electrical 223
Accumulator, a new zinc-lead (R)..... 179
Accumulator, the nickel-iron (R)..... 225
Accurate speed, frequency and acceleration measurements (R)..... 556
Adirondack Murray Memorial Association, the 468
Adjuncts to the power-load, by C. J. Russell* 850
Advertising electricity, by Frank B. Rae, Jr. 952, 990, 1028, 1064
Air and electric drills, the comparative merits of (R)..... 334
Alaskan-Yukon-Pacific Exposition of 1909, the 770
Alcohol-engine investigations..... 125
Alfortville central station and the system controlled by the Est-Lumiere Company (near Paris), by C. L. Durand* 170
Allis-Chalmers Company, the electrical works of the*..... 14
Allis-Chalmers hoisting engine for the Chapin mine, an..... 654
Allis-Chalmers steam turbine and generator in New Rochelle station of Westchester Lighting Company.... 1055
All-steel cars adopted for the New York city tunnel of the Pennsylvania Railroad* 256
Alpine tunnel, another..... 162
Alsace, the use of electricity in the mines of 1009
Alternating-current apparatus, testing* 816
Alternating currents for incandescent lighting (E) 918
Alternating-current frequencies, an arrangement for measuring (R)..... 385
Alternating currents, measurement of (R) 108
Alternating-current motor to central station power business, the relation of the, by E. W. Lloyd..... 506
Alternating-current rectifiers (R)..... 731
Alternators, the sudden short-circuiting of (R) 471
Alternator with an auxiliary field for direct compensation for the armature reaction (R)..... 775
Aluminum 258
Aluminum wire, coils of bare (R)..... 510
American Association for the Advancement of Science, the meeting of the 88
American Chemical Society, electrochemical papers before the..... 298
American Electrochemical Society..534, 583
American Electrochemical Society, communication from the secretary of the 819
American Electrochemical Society, the (E) 573
American Institute of Architects..... 926
American Institute of Electrical Engineers' land and building fund..... 954
American Institute of Electrical Engineers, meeting of the..... 469
548, 724, 899, 1025
American navy safety appliances at Milan 219
American Society of Mechanical Engineers, Calvin W. Rice accepts the position of secretary of the..... 6
American Street and Interurban Railway Association, the (E)..... 575
American Street and Interurban Railway Association, the committee on standard rules of the..... 332
American Street and Interurban Railway Manufacturers' Association—the exhibition of appliances*..... 691
American Telephone and Telegraph Company, Edgar C. Bradley joins the staff of the..... 199
Anemometer, an electrical (R)..... 680
Announcement, special 698
Arc, the iron (R)..... 511
Armature reaction in polyphase alternators, by L. A. Herdt*..... 889
Armatures, construction of squirrel-cage (R) 428
Asbestos in 1905, production of..... 76
Asbestos, the importation of..... 77
Athletic sports for operators, by J. E. Peavey* 893
Audion, the; a new receiver for wireless telegraphy, by Dr. Lee De Forest* 724
Australia, electric railways in..... 6
Australia, tantalite in..... 883
Automatic circuit-breaker, an (R)..... 102
Automatic Electric Company, the growth of the*..... 270
Automatic electric motor-driven pumping plant 909
Automobile Club show, the..... 711
Automobile races, telephone at..... 647

B

Baggage men, electric railways and the (E) 277
Baker Light and Power Company, Baker City, Ore., the hydroelectric plant of the*..... 10
Balancers, by J. W. Shuster*..... 99
Ballistic galvanometers, the theory of "moving-coil" and other kinds of, by Professor Harold A. Wilson.... 633
Ballistic method for magnetic induction, limitations of the (R)..... 428
Baltimore, Md., electrical spectacle at.. 462
Bath Portland Cement Company, Bath, Pa., electrical equipment of the*... 808
Belgian telegraph and telephone service 9
Belgium, the design of blast-furnace gas engines in, by H. Hubert..... 196
Belmont tunnel terminus 304
Berlin street lighting..... 769
Best methods to increase business applied to a village or small city, where the population is not increasing, by Samuel Rust..... 472
Binnacle a cause of error in a compass, the (E) 533
Birmingham (England) power station, the (E) 793
Birmingham (England), new electric generating station at..... 679
Birmingham (England), the new generating station at, by A. H. Bridge* 800
Blast-furnace gas engines in Belgium, the design of, by H. Hubert..... 196
Blow to baggage men..... 258
Blue-print washing machine..... 908
Book Reviews.
A Graphic Treatment of the Induction Motor. Heyland..... 410
Alternating-Current Windings. Kinzbruner 169
American Street Railway Investments 66
Brazing and Soldering. Hobart... 645
Complete Examination Questions and Answers for Marine and Stationary Engineers. Swingle.... 467
Continuous-Current Armatures. Kinzbruner 169
Continuous-Current Dynamo Design. Hobart 1009
Designs for Small Dynamos and Motors. Poole 410
Electric Machine Design. Parshall and Hobart 106
Electrical Engineering in Theory and Practice. Parr..... 9
Electricity as Applied to Mining. Lupton, Parr and Perkin..... 984
Electricity Meters. Gerhardi..... 105
Elementary Experimental Magnetism and Electricity. Allanach... 984
Elements of Gas-Engine Design. Moss 901
Fowler's Electrical Engineers' Handbook 957
Handbook of Mathematics. Claudel 410
Illustrated Technical Dictionary in Six Languages. Deinhardt and Schlomann 410
Industrial Furnaces and Methods of Control. Damour 66
Modern Polyphase Machinery. Stewart 9
Outlines of the Evolution of Weights and Measures and the Metric System. Hallock and Wade 468
Practical Lettering. Meinhardt... 957
Steam Turbines and Turbo-Compressors—Their Design and Construction. Foster 467
Steam-Turbine Engineering. Stevens and Hobart 66
Stray Currents from Electric Railways. Michalke 410

BOOK REVIEWS—*Continued.*
The American Steel Worker. Markham 410
The Copper Handbook. Stevens... 1009
The Design of Steel Mill Buildings and the Calculation of Stresses in Framed Structures. Ketchum.... 957
The Elements of Electrical Engineering. Franklin and Esty..... 468
The Grouping of Electric Cells. Dunton 984
The Management of Electrical Machinery. Crocker and Wheeler.. 467
The Phantom of the Poles. Reed.. 105
The Practical Engineer Electrical Pocketbook and Diary..... 984
The Practical Telephone Handbook. Poole 9
The Practical Testing of Dynamos and Motors. Smith..... 66
The Principles of Electric-Wave Telegraphy. Fleming 9
The Wire Tappers. Stringer..... 223
Things That Are Usually Wrong. Sweet 9
Turbines. Garnett 106
Turning and Boring Tapers. Colvin 1009
Wiring a House. Pratt 468
Boston & New York Electric Railroad Company 554
Boston Edison Company, monthly dinner of the..... 697
Boston Elevated Railway Company, a good year for the..... 853
Boston grants independent telephone franchise 1024
Boston Rejuvenation of the Sons of Jove, the 549, 992
Bradley, Edgar C., joins the staff of the American Telephone and Telegraph Company 199
Bragg, Charles A., death of..... 161
Brake shoes, standardization of..... 165
Brakes for city railways, mechanical (E) 531
Brilliant Electric Company to build new factory 984
British Association for the Advancement of Science, annual meeting of the 204
British Association, the York (England) meeting of the, by John B. C. Kershaw 280
British Association committee on practical standards for electrical measurements, report of the..... 375
Brooklyn Edison Electric Illuminating Company, a visit to the powerhouses of the*..... 326
Buckeye Electric Company, meeting of the sales managers and representatives of the..... 389
Bunsen Society meeting at Dresden, the, by John B. C. Kershaw..... 94
Bust of Volta presented to the Institution of Electrical Engineers of Great Britain 88

C

Cable-laying apparatus, novel..... 97
Cables for high-voltage transmission, underground (E)..... 836
Candle-power, an investigation of auxiliary apparatus for determining the mean spherical and mean hemispherical (R)..... 334
Cadmium cell, the (E)..... 405
Calculation of star resistances, the (R). 903
Camden-Atlantic City line of the West Jersey & Seashore Railroad, the opening of the..... 509
Calvin W. Rice accepts the position of secretary of the American Society of Mechanical Engineers..... 6
Canadian Niagara Power Company, the electrical plant of the, by H. W. Buck* 53
Canal bank, two cities left in darkness because of the breaking of a..... 586
Canton, Ohio, a combined heating and lighting system at, by R. W. Hutchinson, Jr.*..... 756
Capacity of a battery of accumulators operating at variable output..... 937
Carbon brushes *versus* copper (R).... 470
Car brake, an electric*..... 773
Car brakes, by Henry Mozley*..... 676
Car heater, electric (P)*..... 143
Cassier's Magazine..... 932
Chapin mine, an Allis-Chalmers hoisting engine for the..... 654
Charging storage batteries when employed as a reservoir of energy (R) 384
Chemical and electrical changes induced by light (R)..... 680
Chicago, another new telephone company for..... 981
Chicago electrical trades exposition. 898, 1019
Chicago, Lake Shore & South Bend Railway 126
Chicago, second annual electric show at 751
Chicago, the telephone situation in..381, 982
Chicago traction situation, the..... 1025
Cincinnati Fall Festival, the..... 427
Circuit-breaker, automatic magnetic (P)* 263
Cities of evil smells, our (E)..... 491
Close works of Ernest Scott & Mountain, Limited, the new (R)..... 225
Coal as affecting performance with steam boilers, some characteristics of, by W. L. Abbott*..... 411
Coal supply, the world's..... 98
Coal, the testing of, by A. Bement.... 597
Coal values (E)..... 405
Collieries, some notes on the mechanical equipment of, by E. M. Hann.. 296
Collisions at sea, wireless apparatus to prevent 209
Colloids in technical processes, the use of (E)..... 123
Colloids, notes on, by Alfred Lottermoser 555
Columbia University, electrical engineering department of..... 698
Columbia University, evening technical courses at..... 869
Combined heating and lighting system at Canton, Ohio, a, by R. W. Hutchinson, Jr.*..... 756
Commercialism, an uplifting of (E).. 795
Comparative cost of cooking with various fuels, by Charlotte D. Seaver 1024
Concord, N. C., extension of Southern Power Company's system to..... 295
Condenser, a new type of industrial (R) 902
Conductivity and magnetism (E)..... 1004
Conductivity of air in an intense electric field, and the Siemens ozone generator, the (R)..... 821
Connellsville, Pa., an electrical spectacle at*..... 426
Contractor, an interesting suggestion for the electrical..... 343

CONVENTIONS.
American Street and Interurban Railway Accountants' Association 722
American Street and Interurban Railway Association.328, 587, 642, 687
American Street and Interurban Railway Claim Agents' Association 722
American Street and Interurban Railway Engineering Association 682
Association of Edison Illuminating Companies 327, 516
Colorado Electric Light, Power and Railway Association.....427, 509
Electrical Trades Association of Chicago 901
Electrical Trades Society of New York 1021
Illinois Electrical Association..... 509
International Association of Municipal Electricians..... 331
National Electrical Contractors' Association 18, 48, 88, 124
National Interstate Telephone Association 19
Northwestern Electrical Association 817
Northwestern Telephone Exchange Company 930
Ohio Electric Light Association... 125
254, 282, 382
Railway Signal Association, the.547, 695
Street Railway Association of the State of New York..... 43
The Street Railway..... 587
West Virginia Independent Telephone Association 1055
Conveyers, adaptations of electrically driven, by Day Allen Willey*.... 752
Cooperative Electrical Development Association 760
Copper exports, increased value of.... 987
Copper production, increase in the United States..... 479
Correction, a..... 698
Cosmopolitanism of science, the..... 297
Cost table wanted..... 363
Cost of suction gas power (A)..... 950
Costs of, and results from, soliciting and advertising, by H. K. Mohr.... 513
Council Bluffs, Iowa, telephone crossing at (R)..... 864
Creplet system of hoisting for mines, the (R)..... 109
Crookes tubes, phenomena observed in (R) 605
Cryolite, importation of..... 96
Curtis steam turbine, test of a 5,000-kilowatt* 4

D

Dam of the bear-trap type in the country, the largest movable, by W. C. Weeks 711
Death of Arthur Vaughn Abbott..... 932
Dedication of the new building for the engineering departments of the University of Pennsylvania..... 597
Denver "Welcome" arch, the*..... 61

50513

Determination of the point of transformation of certain steels by means of the electrical resistance (R) 680
Detroit River tunnel contract awarded. 429
Diagrams, simple (E)..... 967
Diesel engines for interurban railway service, by Norman McCarthy.... 907
Direct-current electric stations, a method of compounding (R)..... 24
Distribution system, electrical (P)*. 333
Domestic electricity (E).....159, 745
Double compounding (E)..... 621
Dresden, the Bunsen Society meeting at, by John B. C. Kershaw..... 94
Drill, a condemnation of the electric rock (E)..... 315
Duluth, forty thousand horse-power in hydraulic turbines for..... 306
Duration of the after-glow produced by the electrodeless ring discharge, the (R)..... 731
Dynamo, a large steam-turbine-driven, continuous-current (R)..... 651
Dynamoelectric machinery, Thompson. 957
Dynamoelectric machines, design coefficients for (R)..... 864
Dynamometer for small motors, a.... 799
Dynamos, high-speed and high-voltage continuous-current (R)..... 108
Dynamos with auxiliary poles, continuous-current (R)..... 604
Dynamo, the fire-proof (E)..... 489
Dynamo, the voltage regulation of a continuous-current (R)..... 511

E

Earthquakes, possible prediction of (C) 879
Economical importance of gas engines in generating stations (R)..... 774
Economy in central station operation, by George Wilkinson..... 855
Educating the public to a better knowledge of illumination..... 1030
Education, the liberal..... 383
Efficiency of steam plant, by Walter A. Vignoles*..... 259
Efficiency of steam plant, the..... 89
Elastic limit of a metal, an electrical method of measuring the (E).... 193
Election of directors of the Westinghouse Electric and Manufacturing Company 161
Electrical and mechanical equipment of the new clubhouse of the Engineers' Club, New York city, the*. 7
Electrical apparatus and supplies, advancing market in..... 819
Electrical cutting of steel I-beams and girders (R)..... 384
Electrical Development Company, of Ontario, the power plant of the, by F. O. Blackwell..... 138
Electrical discharge in air and its commercial application, the..... 364
Electrical Engineering Company, new. 518
Electrical engineering, the influence of (E)..... 121
Electrical equipment of a Newcastle (England) railway warehouse (R) 1027
Electrical equipment of the Bath Portland Cement Company, Bath, Pa.* 808
Electrical equipment of the Erie railroad shops at Hornell (Hornellsville), N. Y.*..... 894
Electrical insulator (P)*..... 223
Electrical machinery breakdowns..... 768
Electrical manufacture of steel..... 716
Electrical measurements of very short time intervals (R)..... 68
Electrical mining notes, by Sydney F. Walker 135, 176, 1016
Electrical night at the Coliseum, Chicago 422
Electrical notes from Europe, by C. L. Durand*.....59, 220, 638, 848
Electrical notes from Great Britain, by A. H. Bridge.....601, 754, 946
Electrical resistances of alloys..... 1044
Electrical spectacle at Connellsville, Pa., an*..... 426
Electrical Trades Association of Chicago 799
Electrical Trades Association of Philadelphia, dinner of the..... 847
Electrical Trades Exposition Company, the 516
Electrical Trades Society of New York, the 930
Electrical works of the Allis-Chalmers Company, the*..... 14
Electric arc destructively applied, the (E) 449
Electric car equipment of the Long Island Railroad, the, by W. N. Smith* 210
Electric cooker (P)*..... 177
Electric drive in the envelope factory, the (E)..... 159
Electric drive, the (E)..... 1043
"Electrician" electrical trades directory and handbook..... 883
Electricity (E)..... 919
Electricity, applications of..... 420
Electricity in medicine (E)..... 879
Electricity in mines..... 251
Electricity in the treatment of disease, by John V. Shoemaker..... 841
Electricity on steam railroads..... 5
Electricity, popularizing (E)..... 531
Electricity: the power behind the South, by W. S. Lee, Jr..... 62
Electricity the safest of all powers (E). 965
Electricity was served to consumers and street-car lines by the San Francisco Gas and Electric Company after the fire, how, by L. E. Reynolds..... 584
Electric lighting by wind power..... 756
Electric lighting in a zoo (E)..... 707
Electric lighting plant for Ridgefield, Ct.* 1059
Electric motors in competition with gas engines..... 458
Electric phenomena at very high tensions (R)..... 865
Electric power in the South (E)..... 37
Electric power on the Great Western Railway, England (R)..... 68
Electric power to rid London of smoke. 325
Electric pumping at collieries, by Gerald H. J. Hooghwinkel..... 100
Electric railway development (E).... 622
Electric railway development at Niagara Falls (E)..... 123
Electric railway engineering preliminaries, by Sydney W. Ashe*..... 579
Electric railways in sparsely settled communities, by E. P. Roberts*.728, 766
Electric railway statistics for Greater New York 255
Electric smelting of iron and steel (E). 3
Electric tool (P)*..... 107
Electrification of the New York zone of the New York Central & Hudson River Railroad, the present status of the, by W. J. Wilgus*..... 354
Electrification, progress in (E).....2, 351
Electrification of West Jersey & Seashore Railroad*..... 761
Electrifying, economy in..... 712
Electrochemical papers before the American Chemical Society..... 298
Electrolysis, double trolley system not a sure cure for..... 600
Electrolysis, phase displacement in alternating-current (E)..... 573
Electrolytic rectifier, an..... 554
Electrolytic resistances (E)..... 967
Electromagnetic control of governors. 667
Electromotive force (E)..... 193
Elevator service, electricity in..... 47
Emergency application of electricity, an interesting* 516
Engineer and nature, the (E)..... 1041
Engineering activity, an apprenticeship course as a preparation for..... 437
Engineering building of the State University of Iowa, the new, by William G. Raymond..... 292
Engineering building of the University of Pennsylvania*..... 671
Engineering education, progress in (E) 663
Engineering education, society for the promotion of..... 98
Engineering experiment station of the University of Illinois, the*..... 103
Engineering experiment stations (E). 122
Engineers and their work, by Sir Alexander B. W. Kennedy..... 1020
Engineers' Club, New York city, the electrical and mechanical equipment of the new clubhouse of the* 7
England, underground telegraph wires in 69
English experiment of shipping by electric wagons 760
English overhead transmission lines and distribution mains..... 554
English pumping station, an (R).... 902
Enquiry into the operation, efficiency and construction of a typical modern industrial producer gas power plant, by J. R. Bibbins*..... 1013
Entraygues (France) hydroelectric plant, the, by C. L. Durand*..... 933
Envelope factory, the electric drive in the (E)..... 159
Erie electrification..... 930
Ernest Scott & Mountain, Limited, the new Close works of (R)..... 225
Erratum 232
Europe, electrical notes from, by C. L. Durand*.....59, 220, 638, 848
Exhausting our supplies (E)..... 242
Exposition of safety devices..... 773

F

Faraday, a memorial to..... 1018
Faraday Society, the.....57, 164, 948
Fire-proof insulated magnet wire, by W. H. Easton*..... 908
Fires not caused by electricity in Germany 654
Flour bleaching with the aid of electricity 18
Fogs by electricity, the artificial dispersion of (R)..... 604
Foolish testimony (E)..... 707

Foreign trade opportunities..... 246
Fracture of axles originating in drilled holes (R)..... 903
France, electric power in..... 977
Frankfort central station, the, by B. F. Hirschauer*..... 417
Frequency meters, by F. Conrad..... 594
Friction and lubrication (R)..... 556
Fuel analysis for steam users (E)..... 447
Fuel, water and gas analysis for steam users, by J. B. C. Kershaw..... 376
408, 459, 492, 544, 576, 624
666, 708, 748, 796, 838, 880
Fused magnesium oxide, on the physical properties of (R)..... 178

G

Gas-blowing engine plant for the Indiana Steel Company..... 150
Gas engine ignition..... 18
Gas engines, a method of starting..... 47
Gas engines, measurement of friction in, by A. H. Burnand*..... 160
Gasolene electric light plant, test of a small..... 252
Gasolene-electric motor car, a (R)..... 24
Gas power, the evolution of, by F. E. Junge..... 985
Gas, power transmission by means of. 96
Gas turbines..... 1061
General Electric Company, strike at the works of the..... 984
General Electric Company to issue new stock..... 586
General Electric stock issue..... 637
Generating equipment for a gold mine, electric*..... 292
Generating station at Birmingham, England, the new, by A. H. Bridge*..... 800
Generators, some notes on the mechanical design of electrical, by R. Livingstone*..... 253
Gift to Union College..... 1063
Glasgow telephones..... 135
Glass, a low-resistance..... 333
Glidden, Charles J. and his automobile trophy..... 162
Glow-lamp standards and glow-lamp photometry, notes on (R)..... 557
Gold medal for the Brooklyn Rapid Transit Company..... 818
Gold mine, electric generating equipment for a*..... 292
Great Britain, electrical notes from, by Albert H. Bridge.....601, 754, 946
Great Britain, municipal telephony in (E)..... 157
Greater New York, electric traction in (E)..... 279
Greenock, Scotland, Electricity Works extensions..... 298
Greenwich observatory in trouble (E). 38
Greenwich power station of the London County Council, the, by Albert H. Bridge*..... 972
Ground-detector and cutout (P)*..... 143
Grounded neutrals with series resistance (R)..... 604
Guayule rubber development..... 246
Gymnotus electricus as a source of power, the (E)..... 243

H

Handling public complaints, by John A. Beeler..... 771
Hamilton, Ohio, new telephone exchange, the, by J. E. Peavey*..... 978
Harmonic party-line systems, by William W. Dean*..... 204
Heating of underground cable (R)..... 774
Heusler magnetic alloys, experiments with the (R)..... 604
High-efficiency electric lamps (E)..... 877
High-speed and flying connections (E). 407
Hoisting apparatus when operated by continuous-current motors, a study of starting (R)..... 650
Holland, two exhibitions in..... 932
Home Telephone Company, Detroit, Mich., the new plant of the..... 603
Home Telephone Company of Detroit, organization of the..... 549
Horseshoe Falls, raise the, by Alton D. Adams..... 163
Hydroelectric and steam equipment of the Athens (Ga.) Electric Railway Company, the*..... 1010
Hydroelectric contract for J. G. White & Company..... 779
Hydroelectric plant at Lucerne, Switzerland, the, by Franz Koester*.. 200
Hydroelectric plant of the Baker Light and Power Company, Baker City, Ore., the*..... 10
Hydroelectric power plant and transmission lines of the North Georgia Electric Company, by R. W. Hutchinson, Jr.*..... 635

I

Ideal, progress toward an (E)..... 351
Ignition, gas engine..... 18
Igniter, electric (P)*..... 143
Illinois Independent Telephone Association..... 23
Illuminants, indoor, by James Swinburne..... 975
Illuminating engineering, a noteworthy example of modern*..... 1056
Illuminating Engineering Society..... 542
648, 737, 812, 869, 954, 1022, 1044
Illuminating Engineering Society of New England..... 1029
Illumination, data on indoor, by J. E. Woodwell*..... 713
Illumination, illustrated lectures on.. 783
Illumination, increasing the standards of (E)..... 623
Illumination, suitable methods of (E). 1003
Illumination tests..... 516
Incandescent electric lamps, the William J. Hammer collection of..... 847
Incandescent lamps, a new company to manufacture..... 343
Incandescent lighting, applications of rare metals to (R)..... 650
Increasing the constancy of batteries giving currents (R)..... 774
Increasing the standard of illumination..... 679
Independent Telephone Companies, combination of..... 639
Independent Telephone Company of Chicago..... 1025
Independent Telephone officers elected. 295
India rubber, importations of..... 1058
Indicator, electrically operated (P)*.. 333
Indicator for hardening steel, the magnetic (E)..... 406
Indianapolis, New Castle & Toledo Electric Railway, the..... 222
Indiana, Columbus & Eastern Traction Company, the*..... 854
Indiana Steel Company, Gary, Ind., the electrical equipment of the....148, 670
INDUSTRIAL SECTION.
Air compressors, National. N. B. & E. Co.*..... 394
Allis-Chalmers Company and the manufacture of Christensen air-brakes..... 149
Allis-Chalmers electric hoists. A.-C. Co.*..... 956
Allis-Chalmers induction motors for the Washoe smelter of the Anaconda Copper Company. A.-C. Co.*..... 228
Allis-Chalmers oil-insulated transformers*..... 781
Alternators, a new line of. W. E. Co.*..... 476
American-Ball engines and generators.....149, 780
"American" portable voltmeters and ammeters. A. I. Co.*..... 111
Anderson electrical time switch, the. A. & J. M. A. Mfg. Co.*..... 1067
Apple ignition system for 1907, the. D. E. Mfg. Co.*..... 906
Arc lamps, new flame. S.-G. I. E. Mfg. Co.*..... 479
Arc lamps, new pole fixtures for. A. L. M. Co.*..... 653
Attachment plug, a new separable switch. S. Co.*..... 698
Automatic feeder regulators. G. E. Co.*..... 230
Automatic motor-controlling devices. N. Y. E. C. Co.*..... 521
Automatic Refrigerating Company, The exhibit plant of the. A. R. Co.*..... 30
Automatic starting compensator for induction motors. G. E. Co.*.... 1030
Automatic time switch, a commercial type of. G. E. Co.*..... 826
Blue-printing machine, a new form of electric. R. M. Co.*..... 736
Blue-printing machine, a new electric. J. H. W. & Co.*..... 779
Buckeye electric blue-printing machine, the. B. E. Co.*..... 825
Buckeye two-cycle single-acting gas engine for generator driving, the. B. E. Co.*..... 392
Capstan cable jack, a new. P. & S.*..... 562
Centrifugal pumps, Allis-Chalmers, motor-driven. A.-C. Co.*..... 475
Cleats and break-arms, new. A. L. M. Co.*..... 475
Commutating-pole variable-speed motors. G. E. Co.*..... 342
Commutators, Homer. H. C. Co... 479
Cook's automatic electrical testing and resetting plug. F. B. C..... 612
Crank mechanism for internal-combustion single-acting engines, a novel. R. E. Co.*..... 229
Diesel engines, effect of load-factor on fuel consumption of. A. D. E. Co.*..... 73

INDUSTRIAL SECTION—*Continued.*

Diesel oil engine test. D. E. Co.*. 610
"Dow" adjuster, the improved. M. E. Mfg. Co.*. 518
Dry cell, a fifty-ampere. F. B. Co.. 608
Drawbridge, gasolene-electric apparatus for moving a. F. M. & Co. 564
Electric fixtures. C. G. & E. F. Co.* 1031
Electric motor conquest, another. G. E. Co. 478
Electric motor drive in the packing industry. G. E. Co.*. 955
Electric power in the plant of the Springfield Metallic Casket Company, of Springfield, Ohio. 609
Electric Service Supplies Company announcement. 1070
Electric-tower control of surface-track switches. A. A. S. Co.*. 1068
Erecting shop, a busy. A.-C. Co.*. 112
Eureka electric flat-irons. W. J. B. E. Mfg. Co.*. 391
Feeder regulator, results obtained by the General Electric Company's automatic. G. E. Co.*. 435
Flasher, a large electric. R.-D. F. Co.* 433
Flashing sign, a new form of. L. S. Co.*. 148
Flush receptacle, a new. H. H. Inc.* 868
Franklin Electric Manufacturing Company, second annual conference of the. 76
Franklin Electric Manufacturing Company's street railway incandescent lamp, the. F. E. Mfg. Co.* 608
Furnace, the balanced-draft gas producer. E. Co.*. 517
Fuse, 250-volt indicating plug. D & W F. Co.*. 994
Gallatin Hotel, Uniontown, Pa., electrically operated refrigerating plant in the*. 232
Generators arranged for direct connection, small. C.-W. Co.*. 608
Generators for the Ottumwa Railway and Light Company, new. W. E. Co.*. 389
Generators for traction purposes, a large installation of gas-engine-driven. A.-C. Co. 563
Generator sets, crude and fuel oil. De La V. M. Co.*. 521
G. I. outlet boxes. S.-G. I. E. Mfg. Co.*. 305
Gleason universal molding box, the. J. L. G.*. 390
Gould's electric mine-sinking pump. G. Mfg. Co.*. 561
Gould telephone storage battery, the. G. S. B. Co.*. 183
Governor, a new water-wheel. L. G. Co.*. 73
Ground-connection clamp, an all-copper. C.-S. Co.*. 1031
"Harvard" outlet boxes. H. E. Co.* 1069
Hatches, power-operated. L.-A. Co.* 306
H. C. K. instantaneous electric water-heater. H. C. K. Co.*. 432
Holophane reflecting arcs, the new. H. G. Co.*. 780

INDUSTRIAL SECTION—*Continued.*

Horizontal type direct-current Curtis steam turbine generators. G. E. Co.*. 147
Hubbell candelabra socket, new. H. H. Inc.*. 73
Hudson Company's tunnels, electric equipment for the. G. E. Co.. 521
"Hylo" flasher, the. P. Co.*. 148
Incandescent lamps, weatherproof. R. E. L. Co.*. 391
Indicator for enclosed fuses, an improved. H.-M. Co.*. 183
Induction motors, single-phase. G. E. Co.*. 388
Induction motors, small riveted frame. G. E. Co.*. 29
"Keough" cord-grips. K. Bros. & Co.* 76
Lamp brackets, a new line of adjustable. W. L. Mfg. Co.*. 868
Lamp fixtures, adjustable incandescent. G.-W. Mfg. Co.*. 392
Lamp guard, a new. H. H. Inc.*. 612
Lamp guard, a portable. I. P. F.* 653
Laundry, the electric equipment of a modern. G. E. Co.*. 783
Lever switch, an improved type of. G. E. Co.*. 519
Lighting specialties, new outdoor. A. L. M. Co. 75
Lincoln variable speed motor, the. L. E. Mfg. Co.*. 436
Locke Insulator Manufacturing Company, Victor, N. Y., enlargement of equipment of the. 389
Magneto telephones, a new line of. A. E. Co.*. 184
Manual of wireless telegraphy. Collins. 957
Marshall Electric Manufacturing Company's standard dial switch, the. M. E. Mfg. Co.*. 608
Mechanical time recorders. B. Co.* 779
Mercury arc rectifier panel for charging ignition batteries. G. E. Co.*. 867
Metallic support for cross-arms, a* 607
Midget plug and receptacle, new type. M. E. Mfg. Co.*. 392
Motor drive for coal-crushing rolls. A.-C. Co.*. 269
Motors for testing purposes, high-speed, high-overload capacity. G. E. Co.*. 268
Multiple-voltage system of motor control in New England cloth-printing establishments, the. A.-C. Co.*. 561
National alternators in the plant of the Merchants' Heat, Light and Power Company, Canton, Ohio.. 826
National Electric Light Association Convention, central station advertising at the. C. A. Co.*. 30
National motor-generators in the substations of the Columbus, Ohio, Railway and Light Company. N. B. & E. Co.*. 609
"National" steel tube cleaner, the. H. W. J.-M. Co.*. 1070
New York Central & Hudson River Railroad storage battery equipment. 995

INDUSTRIAL SECTION—*Continued.*

Oaxaca Smelting and Refining Company equipped with Westinghouse electrical apparatus. 826
"Peerless" switch, the. M. E. Mfg. Co.* 343
Pipe cap, the "G. V." G. V. & Co.* 73
Plant of the Dean Electric Company, Elyria, Ohio, sold. 1070
Plug for fan motors, a rythmic regulating socket. P. Co.*. 343
Polyphase revolving-field engine-type generators. F. W. E. Wks.* 340
Portable air-compressor outfit. G. E. Co.*. 307
Power machinery exportations. W. M. Co. 307
Pumps for fire protection in large buildings, electric motor-driven.* 827
Push-button switch, new design of. M. E. Mfg. Co.*. 436
Receptacle and attachment plug, "G.-I." flush. S.-G. I. E. Mfg. Co.* 737
Receptacle, new type flush. M. E. Mfg. Co.*. 736
Refrigerating plant in the Gallatin Hotel, Uniontown, Pa., electrically operated.*. 232
Regulator for both alternating and direct-current systems, a voltage. P. Co.*. 341
Regulators, automatic feeder. G. E. Co.*. 230
Rolling mill motors. C.-W. Co.*. 149
Safety system for elevators. S. D. Co.* 111
San Francisco "branch office," a. 563
San Francisco office of the Shelby Electric Company*. 267
Shipment from the Westinghouse Company, a large. W. E. & Mfg. Co.* 269
Slide-wire bridge, a new. L. & N. Co.* 995
South America, electrical machinery in. G. E. Co. 76
Splice protector, a new. J. B.*. 906
Stanley-G. I. arc lamps, a new line of. S.-G. I. E. Mfg. Co.*. 77
"Star" toggle bolt, the. S. E. B. Co.* 391
Steam turbine installations. W. M. Co. 114
Storage-battery plates, the manufacture of. G. S. B. Co.*. 563
Sturgess water-wheel governors. L. V. Mfg. Co.*. 518
Switch, a 250-volt, double-pole rotary flush. M. E. Mfg. Co.*. 562
Switch, the Dean hook. D. E. Co.* 520
Telephone drop, the improved G. D. E. S. S. Co.*. 827
Telephone instrument, a new. W. & T. Co. of A.*. 1032
Telephones, new types of interior. H.-C. E. Co.*. 697
Telephones, portable car. S.-C. T. Mfg. Co.* 611
Telephones, portable desk. D. E. Co.* 185
Telephone-testing sets, linemen's portable. H.-C. E. Co.*. 611
Test set, new Navy Department. Q. & Co.*. 434

INDUSTRIAL SECTION—*Continued.*
Torch, a new gasolene. Z. L. & B. Co.* 268
"Universal" electric light holder, the. G.-W. Mfg. Co.* 232
Vacuum drying and impregnating apparatus. J. P. D. Co.* 522
Vacuum impregnating method with "Voltax," applying the. E. C. Co.* 114
Victor combination meter, the. H. W. J.-M. Co.* 267
"Voltax," applying the vacuum impregnating method with. E. C. Co.* 114
Voltmeters and ammeters. "American" portable. A. I. Co.* 111
Wagner Electric Manufacturing Company, the opening of the new plant of the 736
Water softener, the "American." A. W. S. Co.* 993
Water-tight floor outlets. S. C. E. Co.* 268
Water-tight telephone system for battleships. H.-C. Elec. Co.* ... 113
Water-wheel governors, the manufacture of. L. G. Co. 735
Western Electric belted alternators. W. E. Co.* 780
Western Electric Company's new special design short arc lamp. W. E. Co.* 1067
Westinghouse managers' meeting.* 735
Window lighting. I. P. F. 783
"Wotton" single-coil ringers. E. Mfg. & E. Co.* 698
Wright demand indicators, a large order for. S.-G. I. E. Mfg. Co.. 869
Yale & Towne portable electric hoists* 74
Industrial training, an experiment in (R) 470
Installations and apparatus on the Continent, new electrical, by C. L. Durand* 288

RECORD OF ELECTRICAL PATENTS*..... 403
445, 487, 529, 571, 619, 660, 704, 743
791, 833, 875, 915, 963, 1001, 1039, 1077
Reflection and transmission of electric waves by screens of resonators and by grids, the 818
Regenerative control and the bow collector (R) 384
Regulating alternators, a new method of (E) 746
Rejuvenated Sons of Jove, the..246, 753, 869
Report of the Alameda (Cal.) municipal electric light plant..... 776
Report on the New York telephone situation 949
Ridgefield, Ct., electric lighting plant for* 1059
"Roaring" or "corrugated" steel rails (R) 144
Rochester, Syracuse & Eastern Railway, the 807
Rock drills, a successful use of electric (E) 575
Roentgen apparatus, a current interrupter for (R) 24
Rolling mills, electricity applied to (R) 429
Roosevelt cup races, wireless telegraph work in reporting the..... 541
Rotary converters *versus* motor-generators, by Miles Walker 1006
Rotating magnetic field, the, by R. E. Hellmund* 450
Rotating sector-disc photometer, the (E) 350
Rubber, problems in the chemistry of.. 361

S

Safety devices, an exposition of..... 282
St. Denis electric plant at Paris, the new, by C. L. Durand*..... 127
Sanderson & Porter, staff additions for 516
San Francisco's progress toward recovery 578
San Joaquin Light and Power Company, new power plant for the.... 162
Sao Paulo Tramway, Light and Power Company, the, by F. M. Feiker*... 378
Schaffhouse, the electrical installations of the city of (R)..... 385
Schenectady, N. Y., railway men visit.. 23
Science, educating the public in (E).. 314
Science, the advance of, by E. Ray Lankester 244
Science, the cosmopolitanism of..... 297
Science, the, meeting of the American Association for the Advancement of 88
Scientific progress, effect of recent (E) 278

Scientific unbelievers (E)..... 279
Seeing electrically (E)..... 664
Seeing electrically 804, 943
Selection and testing of materials for construction of electric machinery, by J. Epstein..... 1048
Selective system (P)*..... 107
Self-regulating system of electrical distribution (P)* 177
September telephone gain in New York breaks all records..... 582
Sernf Valley, Switzerland, the railway system of the, by Franz Koester* 535
Seville, a 50,000-volt transmission for.. 297
Shelby Electric Salesmen's Association, meeting of the*..... 390
Signaling on the Lehigh Valley Railroad* 646
Simplon tunnel electric locomotives, the, by B. F. Hirschauer*..... 40
Simplon tunnel, electric traction in the (R) 650
Simplon tunnel, power plant for the (R) 681
Simplon tunnel, the three-phase locomotives for the (E)..... 38
Simplon tunnel, train service *via*..... 69
Sixty-five-mile interurban line in Texas 1031
Slipway at Dublin, electrically operated (R) 335
Smithsonian, new head of..... 981
Smoke, society to abate..... 335
Smoke, the suppression of industrial, with particular reference to steam boilers, by A. Bement*..... 688
Snowdon hydroelectric installation of the North Wales Power and Traction Company, Limited, the (R)... 1063
Society for the Promotion of Engineering Education 98
Some measurements of phase displacements in resistances and transformers (R) 950
Sons of Jove, the..... 364
Sound engineering in interurban railway construction, by Guy Morrison Walker 639
South Africa, magnetic survey of..... 863
South American power plant, a new... 255
South, electric power in the (E)..... 37
Southern Power Company lets contract for extensive equipment..... 975
Southern Power Company, new developments of the..... 841
Southern Power Company's system to Concord, N. C., extension of..... 295
Southern waterfalls, electric power from, by J. W. Fraser*..... 367
Special potentiometer for the standardizing laboratory, a (R)..... 1062
Spier Falls power-house, by C. J. Hopkins* 91
Spokane & Inland railway, the*..... 294
Standardization of brake shoes..... 165
State University of Iowa, the new engineering building of the, by William G. Raymond..... 292
Static trouble, a peculiar (R)..... 865
Statistics for Greater New York, electric railway 255
Steam engine, the maximum development of the..... 600
Steam-line electrification and electric railway development, the single-phase system in, by Calvert Townley 359
Steam plant, the efficiency of..... 89
Steam railroads, electricity on..... 5
Steam turbine, an investigation of the. 51
Steam turbine, test of a 5,000-kilowatt Curtis* 4
Steel works, electricity in (R)..... 730
Stone-crushing machinery, electric motors for operating..... 363
Storage-battery improvements, recent, by Sherard Cowper-Coles*.....858, 920
Storage-battery litigation, decision in.. 578
Street lighting fiesta at Oakland, Cal... 1044
Street opening stopped in New York city 819
Street railway convention, the (E)..... 665
Street railway week at Columbus, Ohio. The conventions of the railway, engineering, accountants' and claim agents' association, and the Manufacturers' exhibition, October 15-19 682
Students in a municipal power-house, electrical (E) 795
Submarine boats, wireless control of (R) 264
Submarine cable with a locomotive, drawing (R) 108
Submarine telegraphy (Kitsee) (P)*.. 299
Submarine telephone tests 297
Substation practice (E)..... 837
Substation, the portable (E)..... 2
Suburban electrification at Boston, by Howard S. Knowlton..... 252
Subway, cooling the New York*..... 628
Subway system for Chicago 578
Suitable methods of illumination (E).. 1003
Switchboards and transformer stations dangerous (R) 264
Switzerland, the electric railroad between Schleitheim and Schaffhausen, by Frank Koester*..... 283

T

Tantalite in Australia 883
Tantalum lamp, improvements in the.. 362
Target, a self-registering electric (R). 428
Technical education, sensible remarks upon (E)..... 705
Technical Publicity Association....954, 1044
Telegrams, cuts off free..... 975
Telephone, an anticipation for the (E). 407
Telephone and telegraph..... 250
Telephone, an interesting use of the.. 818
Telephone as a measuring instrument, the (E)..... 835
Telephone at automobile races..... 647
Telephone crossing at Council Bluffs, Iowa (R)..... 864
Telephone developments, New York State 755
Telephone exchange system (P)*..... 107
Telephone exchange, the Hamilton, Ohio, new, by J. E. Peavey*..... 978
Telephone exchange system (Scribner) (P)* 299
Telephone in the permanent seacoast defenses of the United States, the use of the, by M. C. Sullivan*.... 540
Telephone Manufacturer's Association, the 984
Telephone operators, instructing..... 602
Telephone rates, New York pay station 23
Telephone relay (P)*..... 67
Telephone, results by..... 776
Telephones in Japan 332
Telephones in railway work (E)..... 194
Telephone situation in Chicago, the.. 381
Telephone situation, report on the New York .....?..... 949
Telephony, a proposed method of wireless (E) 966
Telharmonic system in New York city. 219
Telharmonium at the Automobile Club dinner, the..... 992
Telharmonium demonstrated before the New York Electrical Society, the* 542
Telpher for conveying coal, electric (R) 178
Teltow canal, electric operation of the, by Frank C. Perkins*..... 498
Teltow canal, opening of the..... 18
Test of an electric car brake..... 696
Testing electrical materials (E)..... 1042
Thermochemical electric generator, a (R) 510
Thermodynamics, its basis in intuition and common sense, the second law of, by William S. Franklin, Sc.D.. 352
Thermodynamics, the second law of (E) 349
Ties of different materials, values of.. 209
Tin-plate mill, an electrically driven*. 251
Traction in Greater New York, electric (E) 279
Traction Managers' and Auditors Association 597
Traffic, railway-motor-car, by T. Hurry Riches and Sidney B. Haslam.... 285
Train service *via* Simplon tunnel..... 69
Tram-cars on gradients, the control of (R) 224
Tramway brakes, the advantages and disadvantages of different systems of (R)..... 557
Tramway lines on the Continent, by C. L. Durand*..... 589
Tramway motors, standardization of.. 862
Tramway systems, power supply to, by S. J. Watson*..... 140
Transformation of electric power into light, by Charles Proteus Steinmetz* 924, 968
Transmission, a rival of electrical (E) 86
Transmission lines and distribution mains, English overhead..... 554
Transmission systems compared, three-phase and direct-current (E).... 448
Transmission, the Moutiers-Lyons (France) high-tension, direct-current (R)..... 335
